Hispanic Heritage Month

Below: **Jailani Pena-Casasola** renders a beautiful Central American bird using a traditional Mexican folk art called *Amate*, which means fig tree.

Each year, Americans observe National Hispanic Heritage Month from September 15 to October 15, by celebrating the histories, cultures and contributions of American citizens whose ancestors came from Spain,

Mexico, the Caribbean and Central and South America.

This year students from around the school learned a variety of important heritages, from food to art to the impact of famous Hispanic Americans.

Fire Safety

The first week of October every year is Fire Safety and Prevention Week.

Students from Chandra's, Deb's and Veronica's class.

Delphi students learned everything from dialing 911 to stop, drop and roll.

The best part is when our lower school students get paid a visit from the Milton Fire Department. The students get a lesson from local firefighters and get to tour the truck.

Technology in the Lower School

Let's face it, they can figure it out faster than most of us. There are so many educational tools available now, especially with mobile technology. The reading games and math games are not only

Hadassah LaFontant gets extra reading on an iPad.

great ways to re-enforce the skills they learn in class, but they are a great way to reward children for all of their hard work. Here are some great sites for you to use:

Form Completions!

When a student completes a Form here at Delphi, he or she has accomplished all the requirements for their level. They are now ready to move on to the next level. However, before they move on, our Standards department verifies that accomplishment through a "Form Exam." This is not a random multiple choice test that a student can pass with a grade of "D" or better.

This is a sit-down-with-the-student process to find out what they have truly mastered, allowing them to demonstrate their knowledge and their skill. We verify each requirement is achieved 100% and that the student can USE what he or she has learned.

"Morale is boosted to high highs by accomplishment. In fact, it can be demonstrated that production is the basis of morale."

- L. Ron Hubbard, The Way to Happiness

The Standards Team - Ensuring Your Child Gets it, 100%!
