PARENTS' DAY!

On Saturday, June 11th, 2011, over 500 hundred people turned out to witness what was one of the best Parents' Day celebrations ever!

With an inspiring address from the Headmistress, spectacular performances from each class and moving speeches from our graduates, the show was perfect from beginning to end.

Students from Chandra's Class, **Nathan Bedingfield**, **Olivia Damas** and **Jada Proffitt**, calling their donkey friend, *Tingalayo*.

As energizing and uplifting as it was colorful, Amy's Class once again brought a magical finish to an already dazzling morning.

From left to right: **Yessenia Tejada**, **Michelle Musoke**, **Nickolaos Tzigizis**, **Naomi Shaw**, **Benjamin Wagner** and **Simone Alexander**.

This year's Graduates gave powerful speeches about the changes they have made, the abilities they have gained and how the Delphi Program and the Study Technology of L. Ron Hubbard have prepared them for High School and beyond.

Bjonnce Morris and **Zachary Belizare** dance the *La Bamba* with style and grace.

“Dear Mom and Dad, I’m Having a Great Time at Camp!”

Seven weeks of Sun, Fun and Learning! What more could a camper ask for. Our campers have been reading, writing, doing science, art, physical education, going on field trips, learning how to swim, making new friends and learning lots of new things.

Shaylan Chawda pops out for a breath during his swimming lessons. Twice a week campers have been learning how to swim. Our staff are excellent instructors, using our swimming program that has been teaching campers how to swim for over 20 years!

Edna Dupie, Robert Nichols and **Laurel Campbell** drum away at our annual drumming workshop. Special, all-camp, on campus activities include drumming workshops, an exotic Animal Adventures exhibit and a visit from the creatures of The New England Aquarium.

Jessica Chiarenza, Catalina Abboud and **Tari Chinodakufa** visit some indigenous animals. The field trips this summer included a nature hike through the Blue Hills Reservation, a visit to the Trailside Museum, a tour on a Pirate Ship, science and eco-exploration of the Mass Audubon and Belle Isle Marsh, The Easton Children’s Museum and the Fuller Art Museum.

Matthew Ikini, Jimmy Shen, and **Caleb Marquez** after a hard day of looting and plundering aboard Plymouth Cruises, *Lobster Tales*.

Julien Santos, Jonathan Ikini, Qamra Ward, Alia Abdul-Jabbaar and **Caitlyn Walsh** riding the waves and soaking up the rays!
